

Shake and Stir Virginia will be expanding into Virginia this coming September!!!

We will be bringing one of our beautiful vintage bar trucks down to cover the area between Richmond and Charlottesville. The truck will be based out of lovely Amphill Farm in Cartersville.

Shake and Stir had the first full-size bar truck in Connecticut in 2018. We will continue to operate in Connecticut where the liquor laws are dramatically different than they are in Virginia. Our plan in Virginia is to essentially rent out a beautiful bar truck to make a big event more memorable and fun. **We will leave the alcohol for others to provide.**

Caterers, venues, event planners, country clubs, and individuals or organizations can utilize their own staff and their own alcohol. **Anyone with a banquet license** can hire our bar trucks directly for their event. We can supply ice, cups, mixers, etc. **(essentially everything except the bar alcohol)**. Pictures tell a thousand words! Please have a look around our website to get a sense for the excitement that these beautiful vintage trucks can generate. **Our black 1954 Chevrolet 4400 Californian Farm Truck is in great shape and ready to go!**

When our bar is set up it can handle three bartenders behind our 17-foot long wooden bar. We made everything to be 42 inches high, just like a normal bar. The beautiful bottles on the shelves behind the bartenders deliver a bar experience that no other bar service can provide. Every bartender steps behind the bar to find three sinks, speed rails, and buckets full of ice to accommodate the chilled wine.

We can handle groups of 150 to 175 and more if a keg station is added to complement the bar service.

Pricing

We plan on charging **\$2000** to provide a fully set up bar truck. **Either your chosen servers or our crew will clean it up at the end of the event.** We will pick it up after the event. To get the business going in Virginia we are offering the first 10 engagements at the discounted price of **\$1000**. That is limited to one per client.

We can deliver the truck to any location within 25 miles of Cartersville for no additional fee. Travel beyond 25 miles will involve an additional travel surcharge.
